

Berton

S I N T E R E D S T O N E S

HAKKIMIZDA

Berton Granit, 2023 yılında Berton Group şirketlerinden biri olarak kurulmuş ve "Porselen Plaka" sektöründe önemli bir yer edinmiştir. Berton Granit; kaliteyi, inovasyonu, kolay erişilebilirliği ve çeşitliliği bir araya getirerek kullancılara en iyi hizmeti sunmaktadır.

MORE WEAR RESISTANCE

With a Mohs hardness over 6, it exhibits exceptional hardness, superior compressive strength, and excellent resistance to scratches. High quality standards provide global clients with a superior product experience.

MORE NATURAL PATTERN

With inkjet printers imported from Italy, we are able to faithfully reproduce the natural texture of stone with high pixels and not dim. The textures are not only realistic and substantial but also delicate and natural, showcasing the purest expression of natural marble's inherent beauty.

MORE FLAT SURFACE

Advanced production equipment imported from Italy, achieves a flat surface on both the sintered stone slab body and the surface, enhancing the surface clarity of the sintered stone, and refining a high-end experience to any spaces.

BETTER PROCESSING PERFORMANCE

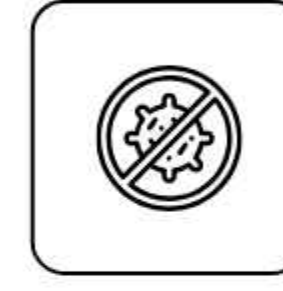

The enhanced stability of the sintered stone body quality results in a higher level of toughness, making slabs suitable for diverse processing techniques and fulfilling the requirements of customized fabrication.

MORE SURFACE TEXTURE

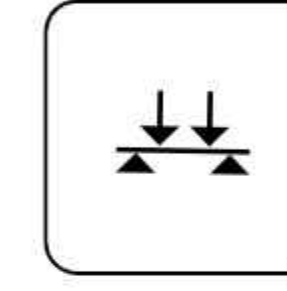

We possess the remarkable ability to produce a wide range of surface textures which is rare in the industry, offering over 28 different finishes, and enabling clients to explore the various natural tactile sensations of surfaces provide.

BENZERSİZ AŞINMA DİRENCİ

Benzersiz bir sertlik, üstün basınç dayanımı ve çizilmeye karşı direnç sergiler. Yüksek kalite standartlarımız, küresel müşterilerimize eşsiz bir ürün deneyimi sunar.

BENZERSİZ DOĞAL DOKU

Üretim kalitesi sayesinde taşın doğal dokusunu yüksek piksel kalitesiyle, soluklaşmadan aslına sadık şekilde yeniden sunuyoruz. Dokular sadece gerçekçi ve güçlü olmakla kalmıyor, aynı zamanda hassas ve doğal bir görünüm sunarak doğal mermerin eşsiz güzelliğini yansıtıyor.

BENZERSİZ DÜZ YÜZEY

İleri seviye üretim ekipmanlarımız, hem sinterlenmiş taş levhanın gövdesinde hem de yüzeyinde mükemmel bir düz yüzey sağlar. Bu sayede yüzeyin netliği artar ve her mekânda yüksek kaliteli bir deneyim sunar.

BENZERSİZ İŞLEME PERFORMANSI

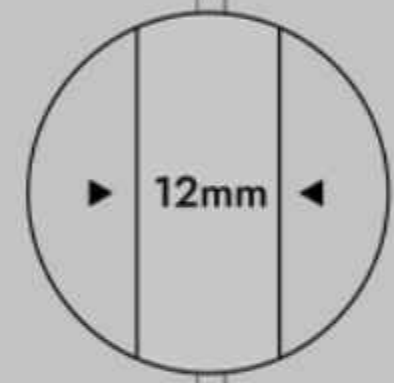

Sinterlenmiş taşın geliştirilmiş stabilitesi, yüksek dayanıklılık sağlar. Bu sayede Porselen, çeşitli işleme tekniklerine uygun hale gelir ve kullanıcıların taleplerini karşılar.

BENZERSİZ YÜZEY DOKUSU

Sektörde nadir görülen bir çeşitlilik ile 28'den fazla farklı yüzey dokusu üretebiliyoruz. Bu sayede müşterilerimize, yüzeylerin sunduğu çeşitli dokusal hisleri keşfetme fırsatı sunuyoruz.
